AirCursor – Table keyboard (print at 100 %, A4 landscape)

Same layout as the Table keyboard in the app. Put this sheet on the table in front of the phone.

1. Second phone: AirCursor → Use as keyboard & touchpad → connect → Table keyboard (camera).
2. Stand the phone so its camera sees this whole sheet.
3. Tap Adjust and drag the four yellow corners onto the four corners of the black frame, then Done.
4. Press: tap – tap a finger on a key. Press: pinch – hold thumb and index finger over a key and pinch.
